GSA Program General Information

Intended use: The furniture covered by Special Item Numbers 711-8, 711-9, and 711-10 is intended for use by Government executive (or equivalent military rank) in the Executive, Judicial, and Legislative Branches, or Armed Forces of the Federal Government. The ordering agency or service is responsible for determining furniture appropriate for use in its offices which will fit within its budget and comply with applicable Federal or international agency procurement regulations.

To help customers make a good purchasing decision based on their needs and budget. GSA has established five grades of furniture. Grade (1) includes furniture that tends to be the most expensive on this schedule, Grade (2) furniture tends to be more moderately priced and Grades (3), (4) and (5) furniture tend to be affordably priced when compared to Grades (1) and (2). Some pieces of furniture on this schedule may be significantly higher in price than GSA Traditional and Contemporary Executive Special Order Program furniture. The ordering agency or service is responsible for determining furniture appropriate for use in its offices which will fit within its budget and comply with applicable Federal or internal agency procurement regulations.

Definition of Grades

Grade (1)

All exposed solid parts such as top rims, base rails etc. (except decorative accents, inlays and parts) shall be the same specials as the face veneer. Top and bottom edges of drawer fronts shall be solid wood in the same species as the face veneers. Drawer sides and backs shall be solid wood. All CCN products classify as Grade (1).

25. Data Universal Number System (DUNS) number: 091675082

26. Central Contract Registration Number: 3XYJ1

About CCN

Founded in 1985, CCN merged the talents of partners with a strong foundation in custom/OEM manufacturing and sales/marketing expertise. Concentrating on the manufacture of wood casegoods for corporate and institutional environments, CCN has developed a solid reputation for both innovation and quality.

Headquartered in the heart of Upstate New York's Finger Lakes region, CCN benefits from the area's heritage of fine woodworking, having been a center for both the American Arts and Crafts movement in the early 1900's and a mecca for the Studio Arts in the 60's and 70's. CCN's manufacturing facility merges state of the art computer controlled machinery with time honored hand craftsmanship, taking full advantage of the best each has to offer.

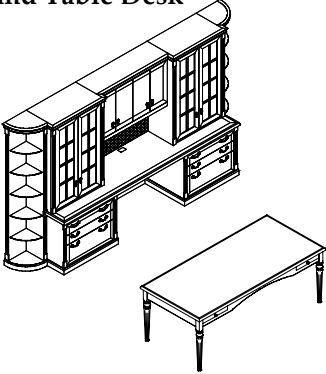

Long respected for the quality and manner in which wood veneer panels are implemented in their furniture, CCN hand selects the highest quality veneers and lays them up in house to ensure the finest results. CCN approaches all orders on a per-project basis, selecting materials specifically for that project, then making certain that all veneer panels are not only sequenced, centered and balanced for each individual piece of furniture, but sequenced and matching for the complete order, whether it be one room or fifty.

This expertise in the execution of veneers is complemented by a similar attention to high quality construction, craftsmanship of solid wood elements, state of the art finishes, the integration of other material such as metal or stone, and the ability to accommodate office technology via wiring solutions, video lifts, key-less locking, etcetera. Accommodating modifications to standard product has been an integral part of the CCN success strategy from day one.

This overview Price List provides a glimpse of CCN's product scope and capabilities. All product categories are more thoroughly presented in the full CCN binder which includes full scope price lists and more extensive brochures on individual products. For more on the full breadth of CCN's offerings, information regarding discounts or for product modification inquiries, contact your local CCN representative, our customer service group at 315-789-4400, or visit us on the web at www.ccnintl.com.

Flip-up Power/Data Module

ATA-BB	4 "W 4 "D	brushed brass	379
ATA-SS	4"W 4 "D	brushed stainless steel	379
ATA-CH	4"W 4 "D	polished chrome	548

Unit complete with: (2) 15 amp power receptacles, (1) RJ-11 and (1) RJ-45 comm/data recept. Power Cord Length - 6' (hardwire option not available) for flush mounting into worksurfaces. Unit can be installed in conference tables, credenzas, desks and computer tables. Unit flips open and is held by magnets. Mouse hole in top will allow cords to stay connected when unit is closed.

Inset Power/Data Box w\Flip-up Lid

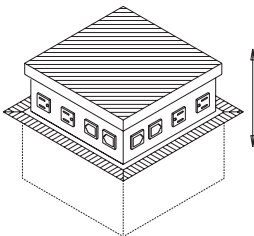

AMUPD-WT	w/black wood accent top	977
	w/non-matching veneer top	977
	w/wood veneer grain to match table to	121

Unit complete with: (3) 15 amp power receptacles, (1) RJ-11, and (1) RJ-45 comm./data receptacles. Power and length - 8' (hardware option not available). Accessed by opening a lid that covers the submerged plug-ins. *Can be used in either the open or closed position.* Cords are positioned in a slot between the lid and work surface.

5-1/2"W x 12 1/2"L

Spring Loaded Power/Data Riser

APR	w/black wood accent top	1639
	w/non-matching veneer top	1639
	w/wood veneer grain to match table top	1865

Unit complete with: (8) 15 amp power receptacles, (4) RJ-11, and (4) RJ-45 comm/data receptacles. Power cord length - 6' (hardwire option not available). Provides access to power and comm/data on all four sides. Flush mounts into table top. Black fiber "brushes" rim perimeter of opening to create a clean fit and permit wires to pass through when in a lowered position. Unit is spring loaded - when pressure is applied to the top surface the entire unit "pops-up". Applying pressure to the top again returns the unit to the down position which is then held in place by a detente.

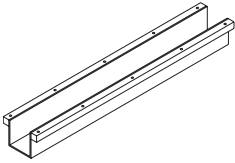

13" x 13" (includes 3/4" brush manager on 4 sides)
Extended Height: 3"
